DALI PHANTOM M series

DALI PHANTOM M-series

- No compromise in-wall audio

Standing on the back of the award-winning PHANTOM S-range, we are proud to present the newest member in our CI speaker series; the DALI PHANTOM M series.

Consisting of 2 models, these new compact and versatile in-wall speakers are tuned for optimal frequency response, ensuring a coherent and musical experience, all of which offer the spacious DALI signature sound. The M-series will perform convincingly, whether installed in a stereo or surround setup, and is designed to act as both front, centre or rear speakers.

Like the S-series the models in the M-series employ DALI's patented SMC technology and lightweight coil technology. Combined with the integrated matrix cabinet this ensures a hassle-free installation and more importantly; an optimal sound performance!

Once installed, DALI's wide dispersion philosophy will provide a room filling sound - played exactly as the artist recorded it. No more, no less.

PHANTOM M-375

- Three 7" drivers including one active woofer and two passive radiators
- The hybrid tweeter module is sealed with a rigid rear chamber to protect the ribbon tweeter from low frequency disruption

PHANTOM M-250

- Two 5.25 active woofers with individual ports
- One Oversized dome tweeter with enhanced bandwidth to perfectly manage the midrange take-over from the two 5.25" woofers
